ABSTRACT

In literature, it can be found many kinds of story. A story is a kind of literature that can be read just in an hour and will be remembered for a long time. It gives people pleasure and excitement, because usually a story tells about a simple thing and even from the story, the readers can get some advice. A book report is completely factual. It includes information on the author, title, place and year of publication as well as a summary of the content of the book. In order to make a book report of this book, the writer would explain about the author, title, place and year of publication, the summary, and some evaluation of this book.

Keywords: Book report, factual, content of the book
