ABSTRACT

The Title of this study is “The equivalence of English preposition *of* into Indonesian”. The writer takes one hundred data of English preposition *of* to be collected. The problems of the research are what are the percentages of the equivalences of English preposition *of* and what are the equivalences of English preposition *of* in Indonesian. The purposes of this study are to find out the percentages of the equivalences of English preposition *of* and to find out the equivalences of English preposition *of* in Indonesian. The result

shows that the English preposition *of* is not only translated into Indonesian in the form of preposition *akan, atas, bagi, dari, dengan, karena, tentang, and untuk* but it is also translated by *berumur, dalam, dan, dimana, pada, salah, terdiri atas, and yang*. The English preposition *of* is also translated into Indonesian by zero translation.

Keywords: equivalence, preposition of
